

PRINTING CHEMICALS

As a result of our experience in supplies and distribution of printing chemicals in the West Africa Region, together with extensive research and development, we are now able to offer a comprehensive and innovative range of high quality chemical products which meet the daily needs of printers and others, enabling them to produce higher quality products.

We recognize that the world has become a 'smaller' place with more complex demands however, and we remain committed to ensuring that our distribution can compete both in terms of price and quality and that in turn our clients get value for money from the use of our products.

As major distributors and suppliers of printing chemicals (e.g. money printing) in the West African Region, with our major market in Nigeria, we have positioned our marketing strategy to sure that you get chemicals of the finest quality

Industrial pigments

We distribute major industrial pigments which are available in various colours and are chemically tested. They are water proof and also have an ability to dry quickly. Our industrial pigments are also intermixed to obtain new colours and shades. We can also distribute these pigments according to client's requirements and demands

OIL AND GAS

As an indigenous operator, under the Local Content Act 2010, we support Nigeria's primary industry through our interest in many aspects of downstream development.

With our partnerships and relationships, within and outside Nigeria, we contribute to this still critical aspect of the Nigerian economy.

Blue Atlantic interest in the oil and gas sector of the economy came to bear largely with the introduction of the Local Contents Act 2010 by the Federal Government of Nigeria, and our experience in the downstream sector over the years.

Our Areas Of Competence And Interest Are:

- Drilling/ Pipeline maintainance
- Construction of terminals
- Construction of jetties
- Movement of finished products
- Construction of filling stations
- Construction of carriage tanks
- Distribution Channels and Marketing
- Construction of Tank Farms
- Terminal construction and maintenance
- Marine Vessel Supply
- Barge and House Boats
- Marine Security and Escorts

We are also in partnership with foreign investors who have vast experience in both the downstream and upstream sector. These partners have collective global experience in both the upstream and downstream Petroleum sector.

Blue Atlantic is licensed and to do bulk supply operations in importation, distribution and management to distributors using our project logistic methods. Also, with our trucking system, delivery of imported finished products is made easy to the end user

Blue Atlantic Limited

is an Indigenous Nigerian Company with international standards.

With our global partners, we offer superior services to our clients, both locally and internationally. Our services span the Agricultural, Dredging and Marine, Oil and Gas, Printing Chemicals, and Security markets.
